## *From the Desk of Mayor Meyers.....*

Hello fellow citizens of Dallastown. I hope you all survived the winter, it was a cold one.

I am looking forward to the warm days coming in spring and summer when we can be outside enjoying the nice weather.

As always, the Borough will have many things going on this year and we ask that you keep an eye on the Borough website for events, dates and times.

We will be celebrating the National Day of Prayer at St. Paul's United Church of Christ in the rear parking lot, the first Thursday of May (7<sup>th</sup>) at 7:00 pm. It will be led by the Ministers of several churches in the Dallastown, Yoe and York Township area.

There are many other things to look forward to; the Memorial Day Parade which is headed by the Dallastown American Legion on May 25<sup>th</sup>, National Night Out Against Crime on August 4<sup>th</sup>, plus our own Carnival in August from the 11<sup>th</sup> to the 15<sup>th</sup>.

Please be reminded to never give out bank information, credit card information or any personal information to anyone you are not sure of, either over the phone or the internet.

Also, remember the only person who can keep our town safe and free of crime is you. If you see something or someone that does not look right, **please call 911**.

As your Mayor, I welcome anyone who has a question or concern to call the office and I will gladly call you back or meet you at the office.

May you all have a wonderful spring and summer season!

Sincerely,

Terry L. Meyers

Mayor

# STORMWATER FACTS

clean water

Brought to you by:

## Municipal Separate Storm Sewer System (MS4)

### INTERESTING FACTS

Did you know.....

- 80% of the Earth's surface is covered by water
- Only 3% of the Earth's water is fresh water
- ONLY 1% of the Earth's water is suitable for drinking water
- 1 gallon of oil can contaminate up to 1 MILLION gallons of water
- Using a commercial carwash reduces stormwater runoff pollution
- The behavior of individuals contributes MORE to water pollution than business, industry, and large public enterprise
- Polluted runoff is the nation's greatest threat to clean water
- EVERYONE lives in a watershed
- The overuse of lawn fertilizers can contribute to excessive plant growth in our lakes and streams
- A typical city block generates more than 5 times more runoff than a wooded area of the same size
- According to the EPA, the #1 pollutant of our waterways is sediment
- It is estimated that 4 billion tons of sediment are eroded annually from construction sites into U.S. waterways

## MS4 & YOU!!

### PROTECTING YOUR WATER SHED!!!

1. **BECOME**...a volunteer and monitor water quality conditions, increase community awareness and help identify and restore problem sites.
2. **ORGANIZE**...your own trash cleanup program in your community.
3. **BUILD**...a rain garden. Rain gardens planted with native vegetation help reduce the negative impacts of stormwater runoff by soaking up excess rainwater.
4. **START**...a storm drain marking project, by producing flyers or door hangers or find out if your community needs volunteers to place decals on storm drains.
5. **GREENSCAPE**...your yard by implementing practices that help improve your lawn while conserving our resources.
6. **HELP**...spread the word! The EPA website ([cfpub.epa.gov/npstbx/index.html](http://cfpub.epa.gov/npstbx/index.html)) contains numerous flyers on practices to reduce stormwater pollution. Do your research and talk to your neighbors, friends, and co-workers about what you have learned to help spread the message.

## Take the Stormwater Runoff Challenge

### Across:

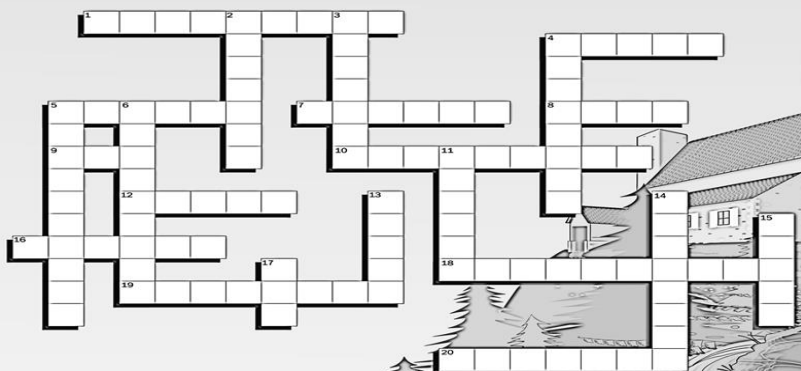

- 1) The area of land that drains into an estuary, lake, stream, or groundwater is known as a \_\_\_\_\_.
- 4) The \_\_\_\_\_ of speeding boats can erode shorelines.
- 5) Maintaining your \_\_\_\_\_ tank will help to prevent bacteria and nutrients from leaking into groundwater and surface waters.
- 7) Wetland plants act like a natural water \_\_\_\_\_ removing harmful pollutants from stormwater runoff.
- 8) Leave your grass clippings on your \_\_\_\_\_ to reduce the need for commercial fertilizers.
- 9) A single quart of motor \_\_\_\_\_, if disposed of improperly, can pollute 2 million gallons of water.
- 10) Fertilizers and animal wastes contain \_\_\_\_\_ that "feed" algae and other aquatic plants harmful to water quality.
- 12) Polluted runoff from both rural and \_\_\_\_\_ sources has a significant impact on water quality.
- 16) Storm \_\_\_\_\_ don't always connect to sewage treatment plants, so runoff can flow directly to rivers, lakes, and coastal waters.
- 18) Follow directions carefully when applying \_\_\_\_\_ on your lawn—more isn't always better.
- 19) Polluted runoff (also called \_\_\_\_\_ source pollution) comes from so many places that it's hard to "pinpoint" a source.
- 20) Yard and vegetable food waste are suitable additions to a \_\_\_\_\_ pile.

### Down:

- 2) Don't dump used motor oil into storm drains. \_\_\_\_\_ it!
- 3) \_\_\_\_\_ of soil from barren land can cloud nearby streams.
- 4) \_\_\_\_\_ prevent flooding, improve water quality, and provide habitat for waterfowl, fish, and wildlife.
- 5) Marking "Do Not Dump, Drains to Bay" on a \_\_\_\_\_ is one way to educate people about polluted runoff.
- 6) Excess sediment, nutrients, toxics, and pathogens are all types of runoff \_\_\_\_\_.
- 11) Polluted \_\_\_\_\_ is the nation's #1 water quality problem.
- 13) The cattail is one wetland \_\_\_\_\_ that helps purify polluted runoff.
- 14) Too much \_\_\_\_\_ in water can harm aquatic life.
- 15) Proper crop and animal management on \_\_\_\_\_ helps to control water pollution.
- 17) \_\_\_\_\_ impact development helps control stormwater pollution through conservation approaches and techniques.

### Choices:

- |            |           |             |
|------------|-----------|-------------|
| compost    | nonpoint  | sediment    |
| drains     | nutrients | septic      |
| erosion    | oil       | storm drain |

## CHRISTMAS IN DALLASTOWN

It's hard to believe Christmas in Dallastown has been around for 11 years already! The 2019 event was bigger & better than ever!! It was a beautiful day for everyone to get out and begin their Christmas shopping. Even Santa was seen hanging around town giving out candy canes!

There were 7 large craft vendor sites that were filled to the gills with table upon table of wonderful items. So much to choose from!! Plus 24 of the local businesses also participated with refreshments and specials. We want to thank all the vendors who were so gracious in donating items for our Map Stamping game. We were able to fill numerous bags with all kinds of goodies! The winners of the drawing were Sue Martin, Carla Diffendarfer, Stacy Grim, Liz Oyler, John Enterling, Mickey Eicherly, Georgia Heilman, Sandra Anderson, Cindy Strobeck, Steve Leaman, Deb Heilman, Matt Berkley, Merry Hildebrand, LuAnn Hildebrand, Savannah Garrett, Melissa Graser, Crystal Miller, Michele Mitchell, Audrey Kinney, Peg Rollman, Joan Gladfelter & Dana Muskett.

There was a huge variety of food at the different sites, plus we also had food trucks on the square at HX Lighting. The trucks that participated were Roadside Grille, Taco Bus, Mr. Bill's Seafood, Shorty's Funnel Cakes, Kona Cocoa & Auntie Anne's Pretzels. The feedback we received about the food trucks was all positive, so look for them again at this year's event!

This year's entertainment was "Silly Goose & Val". Val Smalkin is a ventriloquist, musician, composer, and performer from Baltimore, MD. Everyone enjoyed her so much in 2018, we decided to invite her back for a 3<sup>rd</sup> year. As always, she got everyone involved.

Each child had a chance to sit on Santa's lap, plus received a candy cane & gift from the big guy. Every child also received a chance to win one of five larger gifts.

The museum is open for research and exploration during every open house. New this year will be a focus for each season. During April, May and June, the museum will feature Dallastown's role in the cigar making industry; how it shaped family life in the early 1900's. A short presentation will be followed by time for individuals to share family stories and pictures. It is the goal of the Historical Society to collect and preserve those stories in their archives.

In August, the focus will be on summer fun- church picnics, carnivals, fairs. October and December will highlight music in Dallastown: church orchestras, bands, musical groups, musicians. ## **DALLASTOWN LIONS PLAYGROUND IMPROVEMENTS**

Dallastown community organizations are working together to bring much needed improvements to our Lions Club park! The Dallastown American Legion Post 605, the Dallastown Area High School Leo Club, and the Pennsylvania Lions Foundation have teamed up with the Dallastown Lions Club to install new playground equipment for children ages 2 to 5, and also specifically for children in our community who have disabilities and challenges.

Boy Scout Troop 50, under the supervision of our newest Eagle Scout, Sean Fleagle, and his father, Mr. George Fleagle, have installed an amazing walkway in nature for our residents to enjoy.

A new horseshoe pit is being constructed for renters and the public to enjoy. All of these improvements are brought to you by the Dallastown community working together to bring a better park for our residents to use. Our park is rented throughout the warm weather season, but some dates remain available.

The Dallastown Lions Club wanted to personally thank our partners, the Dallastown American Legion Post 605, the Dallastown Area High School Leos, the Pennsylvania Lions Foundation, our Eagle Scout Sean Fleagle, and the entire Boy Scout Troop 50 for their generosity in being true leaders in our community. We also would like to invite our residents to come and check out our new park!

## **DALLASTOWN AREA SCHOOL DISTRICT PEACE POSTER WINNERS**

Since 1988, Lions Club International (LCI) has held a contest every year for students who are 11, 12 and 13 years of age, with prizes awarded on November 15<sup>th</sup>. This contest is known as the "Peace Poster Contest" and both the Dallastown Area Intermediate School and the Dallastown Area Middle School students participated this year. They competed against students from all over our District (Adams County, Cumberland County and York County). The theme for this year's poster contest was "Journey of Peace!" Students were asked to draw a poster with this theme in mind.

Out of all of the students who participated, Dallastown students won both second and third place! Anika Ray is a sixth-grade student at Dallastown Area Intermediate School and was sponsored by the Jacobus Lions Club. Anika won second place with her wonderful poster. At school, Anika participates in the gifted program, DELTA and Chorus. Her quote that accompanied her poster was "No matter how bad the world can be; the answer is to stay calm. Anger never results in peace." Our third-place winner this year was Sophia Papayannis, who was sponsored by the Dallastown Lions Club. Sophia is a seventh-grade student at Dallastown Area Middle School. At school, Sophia participates in everything art, TV Studio, Student Council, and in this year's musical, "The Little Mermaid", playing the part of Ursula. She also participates in jazz dancing at Adrenaline Dance Studio, York Junior Honors Choir, among many other activities. Her quote that accompanied her poster as "Peace begins with a smile as said by Albert Einstein."

The winning poster moves on to compete nationally with over 600,000 children from 75 countries. Next year's theme will be "Peace Through Service." All students that qualify by age are encouraged to participate. Each winner received a monetary award at both the club level and at the district level. There is also an essay contest and if students would like to participate, please see your school art teachers.

Congratulations to both of our Dallastown students on their amazing accomplishment and we can't wait to see your work next year!

Penn Waste would like to issue a reminder to residents in south central Pennsylvania that pool chemicals should NOT be disposed of in your curbside trash and recycling bins. Pool chemicals are considered hazardous waste and need to be disposed of properly.

As noted by the EPA, pool chemicals are hazardous because when they mix with a small quantity of water or are improperly mixed, such as with other chemicals or reactive materials, they can ignite causing fires. They can also cause skin irritation and release toxic vapors.

Many pool chemicals are highly reactive and capable of generating high temperatures which will start fires. Reactivity may be triggered by water wetting the chemical or by the inadvertent mixing of pool chemicals with an incompatible material.

When pool chemicals are disposed of in the trash or recycling, there is a high risk of them reacting because they **will** come in contact with other liquids in our trucks. Rain, high humidity, and other general liquids disposed of in your trash and recycling can cause the pool chemicals to react when they get collected by our truck resulting in a truck fire.

### The Solution

Do not place pool chemicals in your trash and recycling! Here are several options for getting rid of pool chemicals:

- Take them to a facility that handles hazardous waste. Make sure you check with your local solid waste authority to see if they accept pool chemicals prior to arriving.
- York County Solid Waste Authority
- Check with the pool store you originally bought them from to see if they have a disposal method.
- Donate them to a community pool or your neighbors who have pools.
- Shock your pool by dumping the left over pool chemicals in before you close it for the season.

**We appreciate your help in keeping our team members safe!**

## No Bake Summer Berry Icebox Cake

### Ingredients

- 19 oz graham crackers
- 8 oz cream cheese, softened
- 2 (3.4 oz) packages Vanilla Instant Pudding
- 2-1/2 cups cold milk
- 12 oz Cool whip (or homemade whipped cream)
- 3 cups fresh strawberries, sliced
- 1-1/2 cups fresh blueberries
- 2 oz white chocolate chips

### Instructions

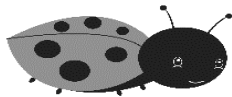

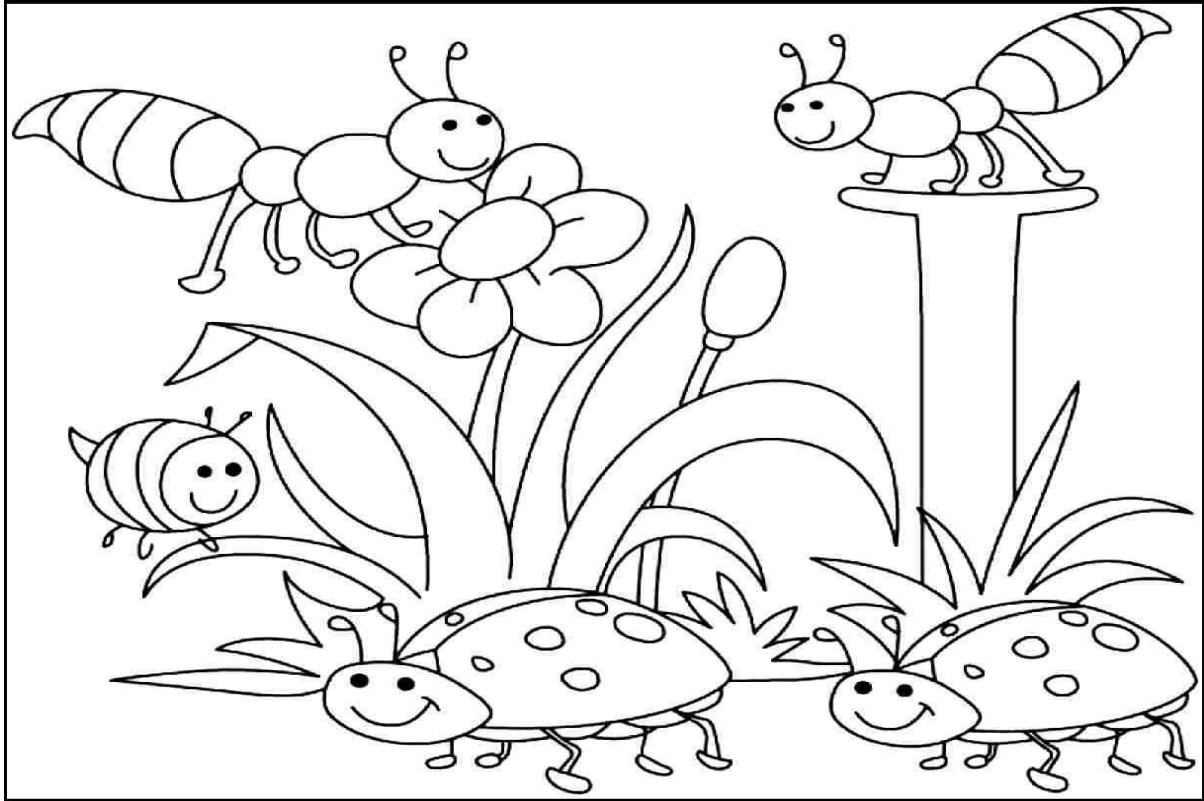

1. Beat cream cheese and dry pudding mixes in large bowl with mixer until blended.
2. Gradually beat in milk.
3. Gently stir in Cool Whip or homemade whipped cream, reserving 1/2 cup.
4. Spread a thin layer of cool whip in a 9x13 pan just to coat the bottom.
5. Layer 5 graham crackers across the center of the pan, then 2 more, breaking them as needed to fit around the top and bottom edges.
6. Spread a layer of pudding mixture over grahams and top with a layer of blueberries and sliced strawberries.
7. Place graham crackers on top of berries, then pudding mixture, then layer of berries again.
8. Repeat the graham-pudding-berries layers 1 more time (3 times total) and you should reach the top of the pan.
9. Refrigerate for at least 4 hours or overnight until the graham crackers have softened completely.
10. When ready to serve, melt white chocolate chips in a bowl as directed on package and drizzle over dessert.
11. You can use a spoon to drizzle it over the tops of the berries or you can put it into a small zip-top bag and snip of the corner for an easy "piping bag."

## Facts About Ladybugs

1. Ladybugs are beetles and are considered an insect because of their 6 legs.
2. They eat Aphids, which are insects that suck juices out of plants. Some also eat leaves. Since they eat Aphids, they are actually very helpful to have in your garden!
3. Ladybugs are not poisonous, but they can be toxic to some animals.
4. Different ladybugs have different number of spots. Some have no spots at all! The spots do not determine how old a ladybug is.
5. Ladybugs come in many colors: pink, yellow, white, orange, black and red.
6. To protect themselves against predators, they sometimes play dead. They also can release a small amount of blood from their legs, which has a bad smell. Their bright colors also warn predators to stay away.
7. Ladybugs have wings and they do fly.
8. They smell with their feet and antennae.
9. Female ladybugs are larger than male ladybugs.
10. The color of a ladybug's spots fade as it gets older.
