**ENGINEER'S REPORT**

- The vault for the Hardees interconnect is in production. DYWA is waiting for confirmation on the shipping date. Once received from Monarch, the vault will be installed by DYWA staff.
- Mr. Mendinsky discussed the Lions Park tank and what should be done as far as maintaining the tank to use for cell equipment, repairing the tank to make it usable for water, or possibly tearing it down and eventually rebuilding it at another location. DYWA decided to contact Jamie Stoltzfus and have him look over/inspect the tank to make recommendations on what is needed to keep the tank where it is and structurally sound. The authority will need to decide if it should be brought back not service, to keep the cell equipment on it, or remove the tank.
