V ENGINEER'S REPORT

- South Park Street Tank: Since the last Authority meeting, Mid-Atlantic has completed the repair work, and the tank has remained out of service to allow the sealant to cure properly. IK Stoltzfus is scheduled to return during the week of May 12th to conduct the final inspection. Following inspection, the tank will be filled and disinfected in accordance with AWWA standards. After the required hold period, bacteriological and chlorine residual samples should be collected. If bacteriological results are negative and chlorine residuals meet acceptable distribution system levels, the tank should be returned to service. Samples of the encrusted material from the fill/drain piping have been sent to a laboratory for analysis. Results are currently pending.
- Heather Glen Subdivision: We continue to await the receipt of a revised Plan from the Developer addressing our previous Plan Review letter dated October 2, 2024.
- CFA PA Small Water and Sewer Grant Applications: The PA Small Water and Sewer Program grant application for the E. High Street and Mockingbird Drive Water Main Replacement project was successfully submitted on April 30th. The grant resolution remains pending and should be enacted upon at the May meeting. Award announcements are not expected until early 2026.
